Please select one of the illustration types and enter the data that you wish to be printed on your identification plate in the following table.

	Type A	Type B	Type C	Type D						
Color no.	1	2	3	4	5	6	7	8	9	10
	white 01550	red 01551	green 01552	light blue 01553	yellow 01554	orange 01555	dark blue 01970	rose 01992	purple 01993	black 01556

The maximum number of characters for a plaintext is 15. The minimum number of characters for a coded barcode is 3 and the maximum number is 15.

When selecting the illustration type C, the plain text is coded as barcode by default. A deviating barcode text can be coded optionally due to specifications given by a material management system for example.

Green, light blue, orange, dark blue and black plates are only available in illustration type A and D.

The text is always black! On black, dark blue, green and red signs, plain text is difficult or impossible to read.
